Integracon Managed Solutions

Integracon Managed Services
Our IT managed services consist of four distinct parts that create our formula for success: expert-level Strategic Consulting, Remote IT services, Remote Assistance and Cloud-based technologies. With these services, you can customize your solution or buy an all-inclusive package.

IT Technical Assistance Center
Integracon Technologies offers unlimited Live Technical Assistance support as a core feature in our managed IT service plans. And, we guarantee when you call our Technical Assistance Center you'll be speaking to a live technical consultant within 5 minutes. Let the professionals solve your problems so you can focus on growing your business.

IT Cloud Services
From design, selection, implementation and support we provide all the Cloud assistance you need. Integracon Cloud Services are divided into three key categories. These categories include Cloud Consulting, Cloud Construction and Cloud Control.

IT Data Vault Services
Your business relies on the on-demand availability of critical data and network applications, from accounting records to proprietary company files. A comprehensive disaster recovery backup is a vital asset that ensures business continuity in the event of a major system or facility failure. Our IT Data Vault Services help your business recover your data in the event of a server failure or natural disaster, and restore it to a new hardware platform or virtual server environment within hours.

IT Managed Security Suite
Integracon Technologies offers unlimited Live Technical Assistance support as a core feature in our managed IT service plans. And, we guarantee when you call our Technical Assistance Center you'll be speaking to a live technical consultant. Let the professionals solve your problems so you can focus on growing your business.

Integracon Services

IT Data Center and Virtualization Services
Our highly-experienced and certified engineers help you plan, design, implement and support a cost-effective data center solution to safeguard your data and infrastructure. Following a unique, consultative approach, we collaborate closely with you to customize the right strategy and technology to drive results for your organization.

Strategic IT Management and Infrastructure Services
Computing and communications infrastructure represents the basic building blocks of your company — and an expense of considerable proportions. In today's competitive marketplace, organizations are challenged to develop, operate and manage their IT infrastructure service delivery organizations in fashions that remain cost-effective, competitively distinct, and flexible regarding changing business requirements.

IT Regulatory Compliance Services
Businesses today have so many existing and new regulations that control how they operate. Because of this, it has never been more vital that businesses have efficient and effective ways to manage risk and monitor compliance. Integracon Regulatory Compliance Services are tailored to provide you with the trustworthy guidance you need.

IT Procurement and Asset Management Services
Going hand-in-hand with our Managed Services, our experts keep track of your IT assets to ensure that you are optimizing asset use and reducing costs. Our IT Procurement experts your assets, supporting your financial analysis, budgeting, and operational planning efforts. This leads your company to be able to achieve full value from your technology investments.

Data Recovery Services
When choosing Integracon as your data recover specialist you can rest assured that you have made the right decision and that experienced data recovery engineers are ready to salvage your data quickly and in the most efficient ways.

IT Mail Services
Our Managed Email service will ensure that your company email is safe, secure, reliable and widely available, all at a reasonable cost, no matter how large or small your company. We specialize in Office365, Google Business Apps and Microsoft Exchange.

IT Mobile Device Management
In today's world, it has become nearly impossible to completely prevent mobile devices from entering the enterprise. Every organization needs to be able to control the mobile devices that are entering their enterprise, whether they are provided by the company or are part of a Bring Your Own Device (BYOD) program.

IT Telephony Services
The Integracon Telecommunications team focuses on the supply, installation, and maintenance of your business telephone systems, structured cabled networks, and associated telecom equipment. From the simplest solutions to the most complex, we manage your systems and help keep your customers within arms-reach no matter the situation.

IT Telecom Services
As an authorized agent, Integracon delivers the most effective carrier solution for your business. Through partnerships with the biggest names in the telecommunications industry, we work with you to determine and deliver the most appropriate and cost-effective carrier solutions for your organization. We also design, implement, and support all of your data, Internet, voice, and conferencing solutions.

Structured Cabling Services
From conception to installation Integracon IT Solutions is with you all the way. We can assess your infrastructure and provide the right cabling products and installation services to maximize the performance of your network and ensure your project is completed on time and on budget.

Asset Disposal and Recycling Services
Integracon Asset Recovery & Disposal service focuses on the retirement and disposal of personal computers, servers, network equipment, and peripherals. It is our mission to protect businesses from the inherent risks associated with computer retirement and disposal.
