6/24/2016

Management Plan

The Management Plan is a special presentation of Issues and Risk by their criticality. The Management Plan provides guidance for which issues to address by priority. Fixing lower issues will not affect the overall risk score, but will affect the overall issue score. Overall risk is mitigated by fixing issues with higher risk scores first.

High Risk

Score	Recommendation	Severity	Probability
100	We recommend placing adequate password strength requirements in place and remediate the immediate password issues on the identified systems. PIT\PSIMPSON1\pablo PIT\JIM-WIN7\jim	High	High
97	Upgrade or replace computers with operating systems that are no longer supported.
