IT DATA VAULT
SERVICES

51% of small and medium businesses who experience catastrophic data loss never recover.

Your business relies on the on-demand availability of critical data and network applications, from accounting records to proprietary company files. A comprehensive disaster recovery backup is a vital asset that ensures business continuity in the event of a major system or facility failure. Our IT Data Vault Services help your business recover your data in the event of a server failure or natural disaster, and restore it to a new hardware platform or virtual server environment within hours. Compare this to conventional backups which may take several days or even weeks to restore.

Integracon's IT Data Vault Service Includes:

- Fully Managed and Staff Free Backups
- Web-based Access
- Offsite Backup out of the box
- An effortless, scalable backup solution
- Flexible backup design
- State-of-the-art secure datacenter storage
- All-inclusive backup service
- Encryption

STEP 1: LOCAL BACKUP STEP 2: OFF-SITE REPLICATION
